

2026 Reclaiming Vacant Properties Conference

Why support RVP?

Since 2007, the Reclaiming Vacant Properties Conference (RVP) has been the only national event dedicated to transforming vacant, abandoned, and deteriorated properties into places where people can thrive. In 2026, RVP returns to Pittsburgh—the city where it began—showcasing nearly two decades of progress and innovation in community revitalization. Pittsburgh's neighborhoods reflect resilience and creative problem-solving, offering lessons for communities everywhere.

In coming to Pittsburgh, our national audience will see and learn from the city's success, and use it as a model for revitalization back home.
